Summary:

The goal is to make the impressions on this website reach 2k, 50 clicks, 2-3% CTR

Step 1: Improve CTR

Goal:

Increase the percentage of users who click when the website appears in search results.

Actions That We Need To Take:

- Rewrite page titles to be more compelling while keeping the target keyword.
- Improve meta descriptions to clearly communicate value.
- Review pages with impressions but no clicks in Google Search Console.
- Match titles and descriptions more closely to user search intent.

Success Metric To Expect:

- CTR increases from 0%.
 - First organic clicks begin appearing.
-

Step 2: Strengthen Existing Content

Goal:

Help current pages rank higher.

Actions We Need To Take:

- Expand landing pages with additional helpful sections.
- Add FAQs where they answer real customer questions.
- Improve heading structure (H2/H3).
- Include related concepts naturally.
- Refresh older articles with updated information.

Success Metric To Expect:

- Higher average rankings.
- More impressions per page.

Step 3: Internal Linking

Goal:

Improve crawlability and distribute authority across the site.

Actions That We Need To Take:

- Link blog posts to relevant service pages.
- Link related articles together.
- Add contextual links from high-performing pages to important conversion pages.
- Review orphan pages and ensure every important page has internal links.

Success Metric To Expect:

- Better crawl efficiency.
 - Increased engagement with key pages.
-

Step 4: Content Expansion

Goal:

Build topical authority.

Actions That We Need To Take:

Publish content around the services the business wants to rank for.

For example:

Pillar: SEO Services

Supporting articles:

- Technical SEO Guide
- Keyword Research Best Practices
- On-Page SEO Checklist
- Local SEO Strategies
- Link Building Guide
- Google Search Console Tips

Each article should link back to the main service page.

Success Metric To Expect:

- More indexed pages.
 - Increased impressions across a wider range of keywords.
-

Step 5: Authority Building

Goal:

Increase the website's trust and authority.

Actions That We Need To Take:

- Guest posting.
- Industry partnerships.
- Relevant business directories.
- Digital PR.
- High-quality backlinks from reputable websites.

Success Metric To Expect:

- Growth in referring domains.
 - Improved rankings for competitive keywords.
-

Step 6: Performance Monitoring (Weekly)

Track:

- Organic clicks.
- Impressions.
- CTR.
- Average position.
- Indexed pages.
- New keywords.
- Top landing pages.

Create a simple dashboard and compare progress week over week.
